

**FEDERAL UNIVERSITY OF RIO DE JANEIRO****Graduate Program in NanoBioSystems****NOTICE No. 02/23 OF 10/17/2023**

This notice is intended for the selection of candidates for the granting of 01 (one) post-doctoral scholarship in the Graduate Development Program (PDPG) Strategic Post-Doctorate – CAPES Notice 16/22.

Project title: Determination of new breast cancer targets by characterizing the epigenetic landscape in luminal, HER+ and triple negative subtypes

1. General conditions

- a. Scholarship value R\$5,200.00 (five thousand and two hundred reais) per month.
- b. The scholarship awarded will last for 12 (twelve) months with the possibility of 1 (one) renewal for the same period, according to the scholarship holder's performance.
- c. For each 12-month period there is a specific Work Plan (attached).
- d. The selection will be carried out according to the candidate's CV and their ability to execute the Work Plan of the stage considered.
- e. Renewals will be analyzed according to the scholarship holder's performance in the previous period and their knowledge for executing the work plan for the stage considered.
- f. The selection process will take place within 15 days from the end of the registration period.
- g. At any time during the term, the fellow may be replaced according to the evaluation of the project coordinator or at the request of the fellow.

2. Requirements

- a. The candidates must have a doctorate degree at the time of registration; held for a maximum of 5 years, counting from the date of implementation of the scholarship.
- b. Be resident in Brazil and be Brazilian or have the appropriate VISA to stay in the country.
- c. Have a registered and updated CV on the Lattes Platform;
- d. Carry out the activities in person, with a workload of 40 hours per week.

e. Accumulation of the scholarship with paid activity or other income must follow the rules of CAPES ORDINANCE No. 133, OF JULY 10, 2023.

It should be noted that the project coordinator or the PPG or must be informed in advance about the accumulation, under penalty of non-compliance with the notice and automatic cancellation of the benefit.

f. The permission provided for in this Ordinance does not exempt the beneficiary from complying with its obligations to the PPG and CAPES.

g. Every 6-month period, the scholarship holder must present a partial report containing the activities carried out during the period.

h. The successful candidate must be able to start activities related to the project as soon as their application is approved, and no requests to postpone this start will be accepted. If this occurs, the scholarship award will be cancelled.

2. Application

a. Applications for the selection process must be made within the period from October 18th to December 6th, 2023. If no candidate is approved, the notice will remain open until one candidate is approved or until the deadline of April 15th, 2024. Registration must be made by sending the following documentation (in .pdf extension) to the postgraduate secretariat, by email (posgradufrjdc@gmail.com and nanobiosistemas@xerem.ufrj.br):

i. Copy of identification documents: ID and CPF for Brazilian candidates, or passport in the case of foreigners.

ii. Link to the candidate's CV Lattes and ORCID;

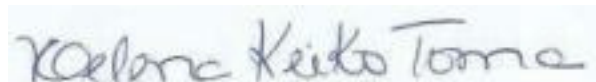

iii. Motivation letter describing the candidate's experience that makes him/her able to fulfill the established Work Plan;

iv. Copy of the doctoral diploma or declaration of completion of the doctorate signed by the coordinator of the postgraduate program and specifying the date of defense. Declarations with a scheduled defense date will not be accepted.

v. Proof of employment, if applicable.

4. Signing the term of commitment.

The successful candidate will have up to 10 days, counting from the date of sending the results of the selection process to the registered email, to send the signed Term of Commitment.

Profa. Helena Keiko Toma
Coordenadora da Pós-Graduação em Nanobiosistema
